

WHY CHOOSE RPI LUMBER?

Superior Durability

Our poly lumber exhibits exceptional durability and resists cracking, chipping, and peeling even under harsh marine conditions. This resilience ensures a longer lifespan with minimal maintenance compared to standard wood or other traditional materials.

Water Resistant

Our material is impervious to water, making it ideal for marine environments where it is frequently exposed or submerged in water. This quality prevents rotting, mold, and mildew that often affect wood in wet conditions.

UV Protected

Our poly lumber is treated to resist fading and damage from UV rays, protecting it from the harmful effects of prolonged sun exposure. This prevents the material from fading, disintegrating, or becoming brittle, preserving its integrity and appearance over time.

APPLICATIONS

- Docks & Decking
- Seawalls & Bulkheads
- Floating Docks
- Piling & Fenders
- Navigation Aids
- Walkways
- Boat Lifts & Trailers
- Boat Trim & Ladders
- Swim Platforms

DEFYING THE ELEMENTS, FROM DECK TO DOCK

At RPI, we pride ourselves on being your reliable and innovative partner in the marine industry.

Here's why choosing us means seamless collaboration and unmatched innovation. ►

COLLABORATE AND
INNOVATE WITH US

Customer Centric Approach

We prioritize your needs and requirements, ensuring a seamless and personalized experience.

Superior Quality and Reliability

We specialize in providing high-quality poly lumber, ensuring the materials you use are not only durable and strong, but also reliable.

Flexibility & Timeliness

We recognize the importance of a timely project completion. Our agile approach ensures that we can quickly adapt to changing project needs, helping you meet deadlines and exceed client expectations.

Custom Solutions

We understand that every project is unique. Our dedicated team works closely with you to tailor poly lumber solutions that meet your specific requirements. Whether it's a distinctive design or a special color scheme, we're here to turn your vision into reality.
